

Based on international advanced design concept, upgrade the structure, adapt to the needs of various users.

Adopt international advanced production facilities—laser cutting machines, automatic welding robots, CNC facilities etc, to achieve top standard tooling operations. Combine chemical treatment process and electrostatic spraying process, ensure perfect appearance.

Main tube thickness: 3mm, combine oval tube thickness: 50*100m

Adjustable thigh pad with enhanced handles.

Pedals can protect users dropping off to the ground during exercising.

Durable handles to release arms conveniently.

Best load angle for increasing or decreasing the weight conveniently.

Specifications

DIM: (L) 1270*(W) 500*(H) 820mm

N. W. : 40KG
